

2005/2006 Inovis Enhancements

- Confirmation messages will be displayed when updating passwords or other information found on the Registration screen.
- Additional features have been added to the Document List screen. You can now delete documents in a SENT status, just as you already may do for documents in an OPEN or RECONCILED status.
- Seven new OGOR and four new PASR edits will be added. They are described at: <http://www.mrm.mms.gov/ReportingServices/ProdRepInfo.htm>
- The Form MMS-2014 edit for reporting Processing Allowances will be modified and is described at:
<http://www.mrm.mms.gov/ReportingServices/RoyRepInfo.htm>
- Reporters can now copy and paste multiple lines within a 2014 document. This enhancement will help avoid key strokes when reporting adjustments. For example, simply copy a line(s), make the necessary change(s) and the adjustment(s) is done.
